

FLASHES & BANGS, Extremophiles & NASA

**SATURDAY
SCIENCE AT
DISCOVERY**

EXPLORE THE SCIENCE OF ASTROBIOLOGY & DEEP SPACE

Saturday, July 6 • 10 am to noon

**Expand your universe at this free event featuring
science happening now at UW–Madison.**

- Enjoy *The Science of Flashes & Bangs* by Bassam Shkhashiri & Rodney Schreiner 10:30–11:30 a.m.
- Build your own rocket, launch an ethanol cannon and experience the Voyager Golden Record, launched nearly 40 years ago and now nearing interstellar space.
- Learn about meteorites, the potential for life on Mars, International Space Station experiments, 3-D rapid prototyping, gravitropism, Earth's DNA beginnings and more.
- Visit with the NASA Astrobiology Institute, UW Space Place, Microbiology Club, UW–Madison geologists, anthropologists, geographers and more at hands-on exploration stations.
