

SEPTEMBER 20, 2012

4TH ANNUAL **Vision Science & Visual Art Poster and Gallery Session**

HEALTH SCIENCES LEARNING
CENTER ATRIUM (HSLC)

3:30PM-5:30PM

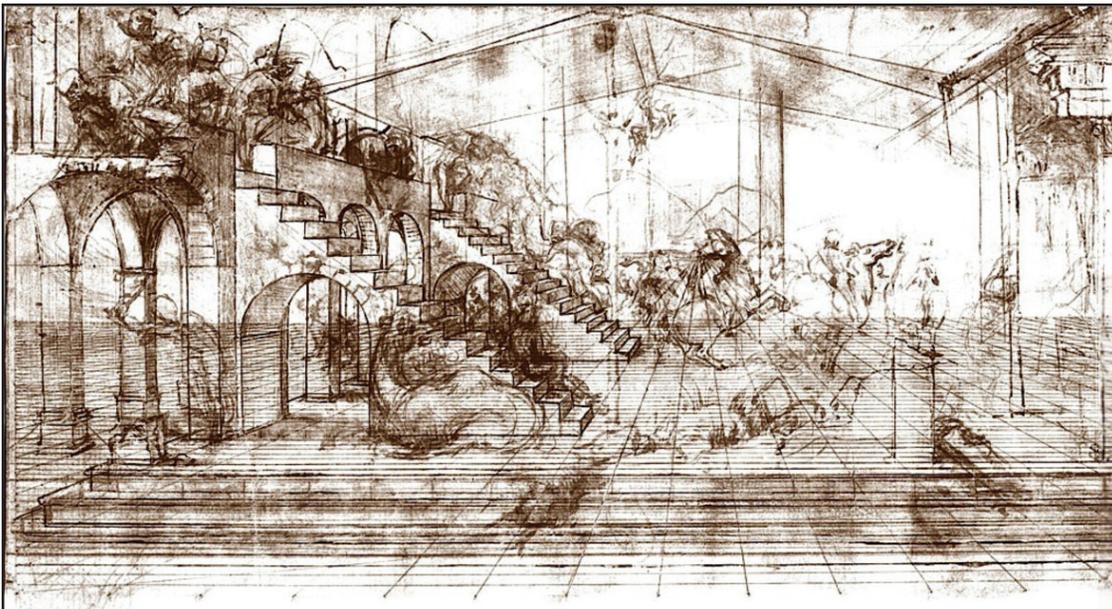

**McPherson
Eye Research Institute**

UNIVERSITY OF WISCONSIN-MADISON

DISTINGUISHED GUEST LECTURE

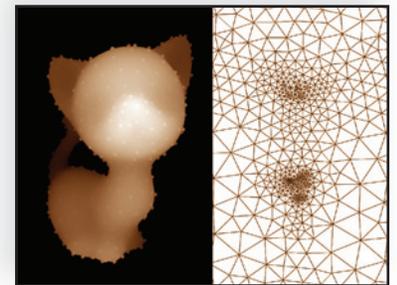

Christopher Tyler Head of Brain Imaging, Smith-Kettlewell Eye Research Institute

Seeing in Depth *Space perception from Leonardo da Vinci to the 21st century*

5:45PM-6:45PM

HSLC rm 1335

Dr. Christopher Tyler will share scientific studies of depth perception, followed by an in-depth examination of the role of depth in painting through the eyes of Leonardo da Vinci. Bridging the visual sciences and arts with his neuroscience expertise and art interpretation interests, Dr. Tyler will enrich both understanding and appreciation of human vision.

CO-SPONSORS JAMES WATROUS GALLERY OF THE WISCONSIN ACADEMY OF SCIENCES, ARTS & LETTERS
CENTER FOR VISUAL CULTURES DEPARTMENT OF OPHTHALMOLOGY & VISUAL SCIENCES
