"De Cari is an appealing performer ... a kind of wide-eyed Alice in Numberland." — *The Boston Globe*

"Funny and insightful one-woman show ... replete with hilarious characters ... The story is riveting ... go see this show!" — *CurtainUp*

"If you see only one play this year about reflexive nonbinary relations, make it this one." — *Los Angeles Times*

Created in response to former Harvard President Lawrence Summers' infamous suggestion that women are less represented than men in the sciences because of innate gender differences, *TRUTH VALUES* is a true-life tale that offers a humorous, scathing, insightful and ultimately uplifting look at the challenges of being a professional woman in a male-dominated field. Writer/performer and "recovering mathematician" Gioia De Cari brings to life more than 30 characters in a hilarious and deeply touching performance that has earned rave reviews from critics and stirred audiences to standing ovations.
